Supplementary Table 1. Cardiac and neurological evaluation summary	
Assessment	**Finding**
Baseline ECG	Sinus rhythm, normal QTc
Serial ECGs	No arrhythmia or ischemia
Holter monitoring	Normal
Echocardiography	Structurally normal heart, EF 55%
Brain CT	No acute pathology
Brain MRI	Diffuse hypoxic-ischemic injury
Neurological status	mRS 5 at discharge

ECG: Electrocardiography, QTc: Corrected QT interval, EF: Ejection fraction, CT: Computed tomography, MRI: Magnetic resonance imaging, mRS: Modified Rankin scale
